

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

MINUTES OF THE MEETING OF THE ASTRONOMICAL SOCIETY OF
THE PACIFIC AT THE STUDENTS' OBSERVATORY, BERKELEY,
CAL., ON JUNE 24, 1911, AND OF THE DEFERRED
MEETING IN HEARST HALL ON JULY 20, 1911.

The regular meeting of the Society was held at the Students' Observatory, Berkeley, on June 24, 1911, but, because of small attendance and the desire to make this meeting a feature of the summer session of the University of California, a motion was made and carried that the meeting be deferred until Thursday, July 20, 1911.

This arrangement was effected through the courtesy of the dean of the summer session of the university and the postponed meeting was held in Hearst Hall on the latter date at 8 p. m.

Professor HEBER D. CURTIS, of the Lick Observatory, delivered an illustrated lecture on "The Distance of the Stars," which was followed with close attention by an audience of about four hundred.

Adjourned.

D. S. RICHARDSON,
Secretary.
